

# Polymesh<sup>®</sup>

## DUAL

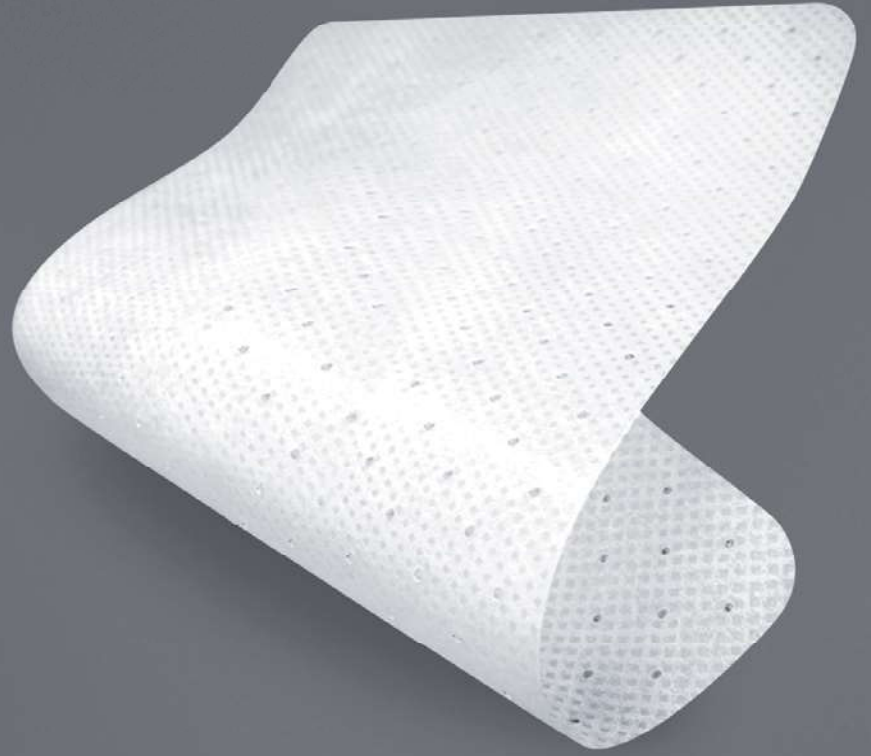

- Dual Sided
- Intraperitoneal Mesh

**Betatech<sup>®</sup>**

*redefining surgery*

- Dual Sided
- Intraperitoneal Mesh

Nonwoven Polypropylene  
Non adherent Silicone

Polymesh Dual is composed of double sides with different properties for implantation in intra-peritoneal site.

Visceral side is made of non-adherent silicone which prevents adhesion formation and creates a pseudo-peritoneum.

Parietal side is made of Non-woven Polypropylene for an easier tissue fixation and colonization.

**Silicone barrier minimizes tissue attachment to the prosthesis**

**Mesh is easily cut to customize shape and size**

**Has ideal memory for laparoscopic repair**

#### Ordering Information

Code	Dimensions	Packaging
SDM1015	10cm x 15 cm	1 per box
SDM1022	10/15cm x 22cm	1 per box
SDM1515	15cm x 15cm	1 per box
SDM1520	15cm x 20cm	1 per box
SDM2030	20cm x 30cm	1 per box
SDM2634	26cm x 34cm	1 per box
SDM3030	30cm x 30cm	1 per box
