

Labor Diagnostik Systeme GmbH

Am Obstgarten 10
D-39326 Wolmirstedt / Germany

Company Profile

LDS Labor Diagnostik Systeme GmbH is a supplier of analysing equipment and consumables for clinical diagnostic laboratories, GP's and sports diagnostics

Company LDS was founded in 2010. It is their aim to support small and middle sized producer companies of medical and laboratory equipment in launching their products into the German and worldwide market. For some regions we got exclusive selling rights from them.

We can count on more than 18 years distribution experiences in the field of medical and laboratory equipment and necessary consumables. Our customers value our professionalism not only in the process of sales and training given during installation of analysers, but also our after-sales-support and supervision afterwards.

The most of our suppliers are located in Germany and they hold all necessary approvals and certificates like DIN ISO 9001, 13485 and CE. All producers are well-known for their reliable high quality and the necessary know-how in producing of this equipment for more than years. They are able to react on customer wishes / demands in a very short time. Innovative ideas will be integrated rapidly.
