Founded in 1980, IHT (Iberhospitex S.A.) is a European company based in Barcelona. The Company's mission is to innovate in the development, manufacture and distribution of high-quality and value-added products to optimise the daily task of healthcare professionals, aiming to improve patients' quality of life.

IHT designs, produces and markets a wide range of single-use hospital supplies, focusing particularly on skin & wound care, and less-invasive treatment of cardiovascular disease.

Today, with its position as a national market leader already consolidated, IHT is widely expanding across the international market.
