## WHO WE ARE

With over 60 years of foam swab design, development and manufacturing, Super Brush LLC has the expertise to create foam applicators and swabs to solve complex problems. Working with foam suppliers, converters and customers, Super Brush LLC is able to take raw foam and transform it into usable, marketable and unique tools.

From prototype to full-scale production, Super Brush has in-house resources to ensure success. Super Brush designs and develops foam feeding, forming and sealing equipment and its production processes are highly automated. Vision systems to identify foam abnormalities are also employed to ensure the highest quality products are produced.

Primary Markets: aerospace, asepsis, clean room, diagnostics, graphic arts, electronics, sporting products, medical device and manufacturing, OTC, pharmaceuticals.

Looking to buy swabs?
