

Superior Adhesive Seal and Performance

Our roll stock solutions provide high value, superior seals and performance for lidding and thermoform fill-and-seal applications.

Roll Stock

Oliver offers coated or uncoated roll stock for medical device and pharmaceutical packaging.

Roll stock offers the ideal packaging solution for automated lidding and thermoform form-fill-seal applications by increasing throughput and reducing operating costs.

Roll stock materials include Tyvek®, Ovantex® papers, films and foils.

Roll stock can be printed with up to eight colors to maximize branding.

Oliver offers superior adhesive options including our exclusive Xhale® hot-melt and SealScience® water-based adhesives for roll stock applications.

Oliver is the only packaging leader to provide Osurance® zone coated roll stock to deliver even more performance benefits.
