

## Our industrial automated system

Motion: **6 axis robot**

Max. substrate size  
& total floor space:  
**Defined by robot dimension**

Integrated MPG Software  
 ✓ **Data tracking and collection**  
 ✓ **Statistical process control for QC**  
 ✓ **Remote Diagnostics**

Precursor supply  
**Gas flow controlled, nanometric droplets**  
**Ultra quick change-over**

Range of precursors  
**Gases, liquids, mix of liquids,  
solutions, dispersions, etc.**

Power: **60 to 450 W**  
 Frequency: **ca 60 kHz**  
 Plasma gas flow: **40-250 slm**  
 Plasma gas types:  
**N<sub>2</sub>, Ar, He, air, CO<sub>2</sub>**  
**mixtures and more**
