

# United Diagnostics Industry

## A PROFILE

**United Diagnostics Industry** is an affiliate of Al-Mouwasat International Company, a pioneering Saudi Company that has been providing comprehensive health care services in the Saudi Kingdom over the past 25 years.

**United Diagnostics Industry (UDI)** was established in 1994 with the aim of meeting the local market needs of quality diagnostic products for laboratories of hospitals and clinics within the Kingdom customers at affordable prices. The good quality of **UDI** products and increased customer trust lead **UDI** to extend its product range from chemistry reagents at the beginning to other areas of Hematology, immunology, serology and instrumentation.

**UDI** plant is built over an area of 8,500 sq. meters with additional 4,000 sq. meters reserved for future expansion activities. The plant is housed in a modern building complex with separate sections for Production, Quality Control activities and Research and Development departments. The plant environment is constantly controlled through a series of air handling units ensuring the flow of clean and uncontaminated air.

The plant is equipped with two Reverse Osmosis systems equipped with multiple series of UV-lights and absolute grade filters, which deliver water of the highest quality that is used in the manufacture of all UDI products.

All **UDI** departments are inter-linked through an advanced network system, which enables each department to interact with each other speedily and efficiently.

The production lines are equipped with the latest automated systems. The majority of the production processes are fully computerized. Thus ensuring efficient and reproducible manufacturing runs.

QC and R&D departments are equipped with a variety of instruments for applications study. Chemistry auto analyzers of all the models of Hitachi and, Ciba Express and the in-house chemistry analyzers.

The hematology counters of all of the coulter series, Abbott series and Sysmex series with our own automated cell counter helps manufacturing the custom specific reagents. The SOP software developed guides to each and every protocol to be followed and the results of all the analyses are automatically computed and posted on the network.

The Biomedical department with qualified and experienced engineer ensures that all analytical instruments are in fully working orders at all times.

The staffs employed at **UDI** are highly qualified and experienced in their own disciplines. A thorough training programmed at regular intervals keeps them updated with the latest technology in the diagnostic products and procedures.

The professionalism and the services offered by the marketing department have resulted in increased sales volume by leaps and bounds. UDI is catering not only to the needs of the medical laboratories in the domestic market but also to the entire neighboring Arab world. In addition, our products have reached as far as Malaysia in the Far East. Currently **UDI** has distributors network in more than 24 countries.

#### COMPANIES IN ASSOCIATION WITH UDI

1. RD RATIO - GERMANY
2. R & D Systems – U S A
3. Analyzer Medical System (AMS) – Italy
4. Audit Diagnostics – Ireland
5. Fortress Diagnostics – U K
6. Teco Diagnostics – U S A
7. Urit Medical Electronic Co. Ltd. – China
8. Elitech – U K
9. SNIBE – China for CLIA SYSTEM & REAGENTS
10. RD-Ratio Diagnostics – Germany
11. Biomedica Diagnostics – Canada
12. Diesse Diagnostica Senese SpA – Italy
13. Alto – U S A

**UDI** participates in all major exhibitions on Clinical Laboratory products, be Regional, National or International, not only to keep in touch with our existing customers but also to create new markets. Our clients are constantly informed about the latest advance of UDI products through advertisements in leading international professional periodicals.

**UDI** had been certified as 9001:2000 (2015) and ISO 13485: 2016 (IVD) products qualities and accepted by CAP system for external quality control, UDI had got CE mark long time ago in order to be able for exporting to the European Markets easily.

**UDI** promises its customers an equaled support and utmost satisfaction with its products and services. We have lived up to our motto “Quality, Reliability, Service and Savings” and continue to follow the same.

#### **UDI current products list includes the following main products:**

- 1-Chemistry Kits and reagents for semi automated and automated units.
- 2-Hematology blood bank reagents.
- 3-Serology kits and reagents for Elisa.

#### **UDI plan is to add in the coming period of plans the following:**

- 1-Blood gas reagents for different analyzers.
- 2- Hitachi automated chemistry reagents.
