

MEDTECH INNOVATION: OPPORTUNITIES ON THE UNITED STATES EAST COAST

An Informational Virtual RoundTable with Members of Rhode Island's Diverse and Dynamic MedTech Ecosystem

Date: Thursday, January 21, 2021

Time: 14:00 to 15:30 CEST = 8:00 AM to 9:30 AM EDT

RSVP by Monday January 18 to Sabine Winkels

Email: Sabine.Winkels@trade.gov

“Everyone is supporting each other to achieve the same common goal to grow life sciences in Rhode Island... it has been an absolute game changer to be here and I think it will continue to propel my business to success”

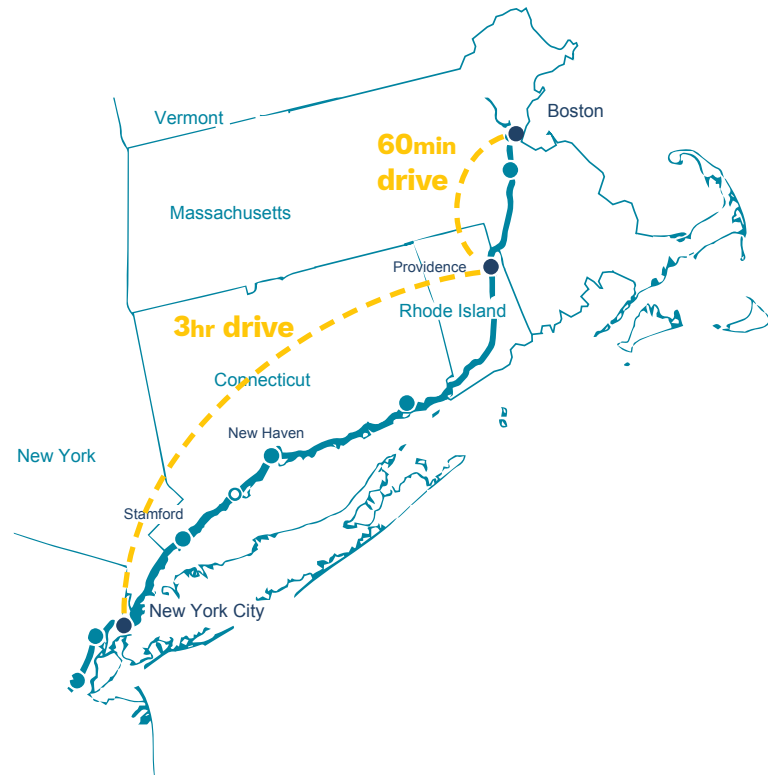

—Dom Messerli, CEO of Lenoss Medical

Rhode Island's Competitive Advantage

Those attending this seminar will learn about the opportunities and resources available in Rhode Island to MedTech companies looking to expand into the United States. Hear from leaders in state government, universities and health systems, local MedTech entrepreneurial support organizations, and companies operating in Rhode Island about how the state is fostering MedTech innovation.

Speakers will present on programs to support international companies looking to locate in the state, including educational bootcamps and soft-landing locations. They will also touch on Rhode Island's unique connectivity and nimbleness that allows for companies to establish partnerships and advance their product's development quickly. This will also be an ideal opportunity to hear from companies already in the state on why they chose Rhode Island and to learn about the innovative work they have undertaken.

[MedTech Monday](#) is a bi-weekly podcast series by the New England Medical Innovation Center which covers new trends, tech, and innovation, with a focus on entrepreneurial and commercialization activity in the Providence, Rhode Island area.
