

Med & Life Sp. z o.o. was established in 1995 and since then we are gaining the trust of our partners and customers by working under our motto High Quality Medical Devices.

- The Certified scope of operations: "Design, development, production and distribution of medical devices for therapy, diagnostics, and rehabilitation".
- Invention implemented in the product Viofor JPS System are patent protected.
- Viofor JPS System is in conformity with Essential Requirements and provisions of Council Directive 93/42/EEC Medical Devices. Viofor JPS Systems are CE2274 marked.
- Manufacturer Med & Life have established Quality Management System certified to ISO 13485:2012 and ISO9001:2009.

Med & Life has appointed a Scientific Board to supervise and coordinate scientific research and medical testing. Therapeutic effectiveness and advanced technology of our products is the result of long-standing research and development in medicine and technology. Our research has been conducted in numerous scientific institutes, clinics, and hospitals. Leading position of Viofor JPS System on the market of the pulsed magnetic field therapy and light therapy is the result of gathered by Med & Life extensive medical evidence. This is confirmed by 198 scientific publications carried out with a usage of Viofor JPS System, including 21 doctoral dissertations. Many studies Med & Life has carried out in the framework of projects co-financed from public funds.

As a manufacturer, we offer equipment for Pulsed Magnetic Field Stimulation as well as LED Therapy.

Clinical research has proven the following effects of Viofor JPS System: analgesic, regenerative, improving peripheral circulation, decreasing oxygen debt, anticlastic, relaxing.

The above-mentioned effects qualify Viofor JPS System for the wide application. Viofor JPS System is used for treatment in the following areas of health care: in doctors' clinics, physiotherapy clinics, in health spas and sanatoria, in rehabilitation, in sports medicine, in home treatment according to doctor's orders, in health prophylactics, in veterinary treatment. The devices can be used at home, which provides effective help to the chronically ill, who are bedridden.

Med & Life offers a wide assortment of Viofor System sets and accessories.

Professional series are designed to use in the health care centers. They are efficient in treatment and rehabilitation of many diseases. Professional series products are widely used by leading healthcare centers, clinics, hospitals, sanatoriums, rehabilitation clinics, sports medicine centers as well as wellness and spa.

- Home series products have been very successful on the market. It has helped thousands of our customers improve their life quality and reduce drug intake, in particular painkillers, anti-inflammatory drugs, and sleeping pills.

Viofor JPS System has gone through the wide range of clinical and scientific research. The documented results of such research have been published in numerous specialist publications. Positive effects of Viofor JPS System in pain control, healing acceleration and strengthening of the immune system help reduce the costs of patient treatment, lower the costs due to employee sick leave absences and reduce pharmaceutical intake. In addition, the regenerative and antistress effect of the apparatus increases the physical and mental ability of its users with no recognized side effects. Another beneficial effect is increasing the concentration and counteracting the everyday tension.

Advanced technology and top quality of our products, as well as the commitment of Med & Life to development of innovative solutions, have been confirmed by numerous awards and honors.

- at 50th World Exhibition of Development, Research and New Technologies "Brussels Eureka" in Brussels
 - special award from the Italian Delegation
 - award from Croatian Delegation
- gold medal at 101st World Salon of Invention „Concours Lepine” 2002 during „Foire de Paris” fairs
- gold medal at “Ideas-Developments-News” IENA 2002 fairs in Nurnberg
- gold medal with distinction at 5th International Exhibition of Inventions “INNOVATIONS 2003” in Gdansk
- silver medal on International Salon of Inventions 2004 in Geneva

• Golden Aesculapius on Poznan International Fairs 2004

“Polish Product of the Future” 2002 competition main prize for Viofor GPS System Clinic

• gold medal at 104th World Salon of Invention „Concours Lepine” 2005 during „Foire de Paris” fairs in Paris for Viofor JPS System Light

• silver medal at 104th World Salon of Invention „Concours Lepine” 2005 during „Foire de Paris” fairs in Paris for Viofor JPS System Laser

• International Fairs of Innovation GENIUS-BU-DAPEST, 2006

• VIII Rehabilitation and Treatment in Health Resorts Fairs REHMED EXPO 2008 in Kielce: medal for Viofor UPS Laser

• Promotional Emblem in 1st edition of “TERAZ POLSKA” (“Poland Now!”) contest for Innovative Enterprises — for Viofor j s Clinic apparatus.

• “Polish Product of the Future” 2019 distinction for Viofor S-PRO "Multifunctional therapy and rehabilitation system using advanced technologies ICT"
