

# BATRIK ENDOSCOPY BITESTRONG™ BITE BLOCKS

## ADULT & PEDIATRIC BITE BLOCKS

Our Bitestrong™ Bite Blocks provide a safe passage through the patient's mouth during TEE, protecting the patient's teeth and endoscope.

Our molding process ensures a smooth finish with no sharp edges (flashing) that can often irritate a patient's mouth. All Bite Blocks are individually wrapped in sealed, easy to open PE bags and are latex free, lead free, and DEHP free. Additional straps are available, if required

### SINGLE USE

- Available without dental retention

### REUSABLE

- Designed for repeated usage and will withstand commonly practiced chemical and steam sterilization cycles (134°C / 275°F).
- Available with or without an adjustable retention strap

## PRODUCT SELECTION
