Velox® Foam Extra

Application:

Velox® Foam Extra is recommended for cleaning and disinfection of a wide range of non invasive medical equipment surfaces made of glass, porcelain, metal, rubber, plastic and acrylic glass. It may be used in hospitals at intensive care units and surgery theatres for disinfection of medical devices, rehabilitation equipment, treatment chairs, incubators, ultrasound heads and lamps. Free from aldehydes and phosphates, does not discolour the surfaces and has a pleasant, fresh scent. The product is suitable for medical equipment surface having contact with food. Velox® Foam Extra has been approved by Famed - a medical equipment manufacturer, for high ABS and upholstery materials tolerance.

Effectiveness	EN14885	Conditions	
		clean	dirty
Bacteria (including MRSA)	EN 16615	60 sec.	3 min.
	EN 13727	60 sec.	60 sec.
Fungi (C. albicans)	EN 13624	60 sec.	60 sec.
	EN 16615	60 sec.	60 sec.
Tuberculosis (M. terrae)	EN 14348	5 min.	10 min.
Enveloped viruses (HIV, HBV, HCV, Influenza, Ebola, Vaccinia, BVDV, Herpes simplex, SARS-Cov-2)	EN 14476	60 sec.	60 sec.

Directions for use:

The product has a double, foam and spray head. Application in foam is recommended. Spray the surface from a distance of 20-30 cm, making sure it is fully covered. Remove the excess foam with a disposable paper towel. The surface does not need to be rinsed with water. Before disinfecting particularly sensitive surfaces (e.g. natural leather), it is recommended to perform the test on a non-visible part of the surface. For professional use only.

Ingredients: active substances in 100 g of the product:

0.15 g N- (3-aminopropyl) -N-dodecylpropane-1,3-diamine,

0.14 g Poli (oxy-1,2-ethanedyl), alpha .- [2- (didecylmethylamino) ethyl]-.omega.-hydroxy-, propanoate (salt)

Packaging units:

1 L spray bottle,
5 L canister

Medical device class II within the meaning of the Medical Devices Act. Intended for disinfection of non-invasive medical devices.
