

NOAM URIM
ENTERPRISES LTD.

Company Profile | About

Founded in 1976, Noam Urim is a leader in the manufacture of needle-punched nonwoven fabrics. Noam Urim processes different fibers to produce its range of needle-punched cloths/felts.

The Company offers a variety of fabrics with features for different applications: dry cleaning cloth for household use, soaped sponges for hygienic personal care, geotextiles for outdoor use, air filter media for the automotive industry, breather felts used in the composite materials industry, wadding, and insulation.

The experienced Noam Urim team develops new items in collaboration with customers to meet exact technical requirements in compliance with international standard ISO 9001:2008.

Why Noam Urim?

- Nearly 40 years' experience
- In-depth knowledge of nonwovens
- Professional expertise and ongoing technical and customer support
- Adherence to international standards for manufacturing and quality
- Fast development, according to specific requirements
- Short lead times
- Fair prices

Noam Urim's production facility adheres to international standards for quality and manufacturing.

Company Profile

Products

Noam Urim produces and supplies mother roll, bulk packaging, and private label nonwoven fabrics that serve as the "raw material" for all types of cleaning cloths, dry wipes, air filter media, soaped sponges, geotextiles, wadding insulation and breathers used in the composite material process.

The entire range of Noam Urim's high-quality fabrics meet exact customer specifications. As well, Noam Urim is known for manufacturing custom and private label items with quick turnaround. Private label products are packed according to the customers' high standards. A number of packing options are available.
