

CMNS2-2 NEEDLE STIMULATOR

- LCD display
- Computer chip Control, frequency & intensity digitally adjustable
- Digital button, simple and convenient
- Two channels output
- Three pulse waveforms
- Electrical therapy
- Acupuncture treatment

Technical parameter

| | |
|----------------------|--|
| Output frequency | 1 ~ 100 Hz |
| Output pulse width | 175 μs |
| Output intensity | 0 ~ 70 V (1 kΩ) |
| Channel | 2 channels |
| Pulse waveform | Biphase asymmetry triangle tip wave |
| Output waveform | continuous wave, intermittent wave and dilatational wave |
| Power source type | No 7 alkaline battery×4 |
| Power source voltage | DC 6V |
