

**SYNEK
MEDICAL**

*With over 60 years of experience in the clothing manufacturing industry, Alison Hayes has expanded its horizons with **SYNEK, the protective equipment line for healthcare workers**. Since its launch, SYNEK has become a strategic player in the fight against the COV19 and the protection of medical staff across Europe.*

We believe in ingenious development, high-quality, reliable products and trust for long-standing partnerships that can have a real impact in the healthcare industry. With our heritage in textile manufacturing and in-house production facilities based in Romania, we design and produce a comprehensive portfolio of over 10 essential medical and protective equipment items at the highest European standards.
