

# Ventilator & Thermometer

## TESTING & CERTIFICATION SERVICES

Medical device users need 100% confidence in their equipment. Choose SGS as your worldwide testing and certification partner to assure the safety, quality and reliability of your products.

We have a global network of established medical devices laboratories with 98 electro-medical categories. We have now special focus on ventilators and thermometers.

## OUR SERVICES

### VENTILATOR TESTING

As a leading service provider of testing and certification services for medical devices and in vitro diagnostic devices, we have opened a fast-track channel for testing services for ventilators.

With our global accreditations under CB, NRTL or CNAS, we can provide import and export clients with fast testing and certification for medical product safety, electromagnetic compatibility and performance.

We offer ventilator testing and certification for:

- International CB Certification
- North America Listed Mark
- EU CE Certification
- USA FDA Registration
- Brazil INMETRO Certification
- IEC/EN 60601-1
- IEC/EN 60601-1-2
- IEC/EN 60601-1-6
- IEC/EN 60601-1-8
- IEC/EN 60601-1-12
- EN ISO 80601-2-12
- EN 794-3

### THERMOMETER TESTING

Through our laboratories we provide import and export clients with fast thermometer testing and certification for product safety, electromagnetic compatibility and performance.

We provide certification under CB Scheme – a global recognition system for electronic products established by IECCE. The system achieves national certification, or approval, through mutually recognized test results among all CB member countries thereby simplifying the process of international recognition.

We also provide regulatory solution and QMS services worldwide, including:

- EU CE MDD/MDR Certification
- Brazil INMETRO Certification
- North America Listed Mark
- MDSAP Certification
- USA FDA Registration
- Africa COC Certification

Our scope includes full testing according to the following standards:

- IEC/EN 60601-1
- IEC/EN 60601-1-2
- IEC/EN 60601-1-6
- IEC/EN 60601-1-11
- ISO/EN 80601-2-56

### WHY SGS?

SGS is the world's leading inspection, verification, testing and certification company. SGS is recognised as the global benchmark for quality and integrity. With more than 89,000 employees, SGS operates a network of over 2,600 offices and laboratories around the world.

We provide competitive advantage, drive sustainability and deliver trust. At SGS, we are continually pushing ourselves to deliver innovative services and solutions that help our customers move their businesses forward.

With specialized medical device laboratories globally in Asia, EU and America, our expertise helps you bring products to market as quickly and efficiently as possible.
