PRODUCTS**

**TRU  LITE**  
LEAD-FREE

**TRU  COMFI**

■ **Lead-free**

Tru-Lite contains lead-free shielding material made from tungsten and other metals.

■ **Lighter**

It is around 20.4% lighter than conventional lead composite apron in the same attenuation rate.

■ **Greener**

Tru-Lite aprons are recyclable, safe for non-hazardous disposal, and suitable for operators in long imaging procedures.
