

Your Partner for Development & Production of  
**Monoclonal Antibodies & Recombinant Proteins**  
for in-vitro diagnostic, research and preclinical trials

# Your independent partner for your outsourcing needs.

ASKA Biotech is a CMO (contract manufacturing organization) specialized in cell culture, antibody & protein production and purification processes. ASKA works with optimized, cost-efficient processes to provide reliable service for economic prices.

Siegmond Karasch (Owner & CEO) has over 30 years experience in cell line development, antibody production and sample analysis. He founded a successful contract manufacturing organization and started this independent business after his exit. Each member of ASKA Biotech's team is well-trained in his field of activity, with multiple years of experience. Our principal concern is to provide constant high-quality products for our customers!

Located in Hennigsdorf, just outside of Berlin, ASKA Biotech produces antibodies and proteins for local and global In-Vitro Diagnostic companies, R&D facilities and preclinical studies.

## ASKA provides you reliable services in outstanding quality for all your needs regarding:

### **Monoclonal Antibodies**

Mouse hybridoma development  
Production and purification  
Activity testing by ELISA

### **Recombinant Proteins**

Cell line development  
Expression and purification  
In mammalian cells

### **ELISA & Sample Analysis**

Immunoassay development  
Sample analysis with your own assay or  
with commercial available assays

**EXPERTISE:** ASKA supports you with your project, whether if you

- struggle with a hard to express protein
- need some mg for your research
- need several g from your production clone

**CUSTOMIZATION:** According to your requirements ASKA delivers your product in your needed

- Buffer, pH
- Concentration
- Aliquotation
- Vial labeling

**QUALITY:** Our delivered products are produced:

- Serum-free
- By optimized efficient production processes
- With GMP-compliant documentation

**Conforming your product specifications:**

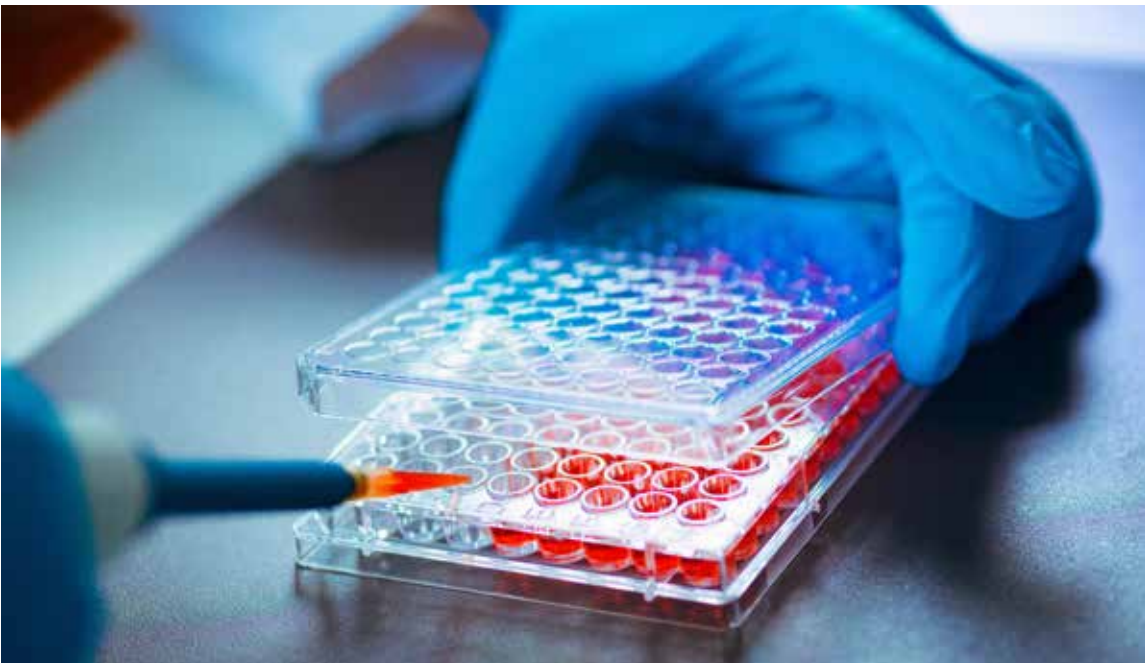

- High purity
- Aggregate-free
- Endotoxin-free

**So test our service & quality standards by yourself  
and request your quote today.**

**ASKA is your partner, you can trust in!**
