# FACTS

Health care access is threatened everywhere in Europe.  
**And it is going to get worse.**

More patients

Less general practitioners

More inequalities between territories

Telemedicine is a real opportunity to enhance health care access situation.  
**But its adoption remains extremely limited.**

Unequal Digital literacy

Limited scope of treatable health issues and medical accuracy

Limited integration in patients' usual health care journey

# COVID FACTS

COVID-19 played a **catalyst role for telemedicine.**

Ease of regulatory constraints

Public Awareness

Credibility for healthcare professionals

But COVID-19 also stressed the **limits of telemedicine as it is today.**

Data security concerns

Unequal Digital literacy

Limited scope of treatable health issues and medical accuracy

Limited integration in patients' usual health care journey

# OUR AMBITION

— T E S S A N —

will become a reference in **proximity**  
telemedicine provider in Europe
