Nourishing Skin Balm

Sinaqua®

PRODUCT DESCRIPTION:

Sinaqua® Nourishing Skin Balm is a class IIa medical device capable of restoring the hydrophilic power of the stratum corneum in cases of pathophysiological alteration of the skin such as dermatitis, erythema, irritation from external agents and manifestations involving redness.

FEATURES:

The combination of Aloe Barbadensis, vegetable oils and panthenol (Vitamin B5) works by creating a humid environment that favors the correct healing process.

- ›100ml and 200ml airless bottle
- ›Non-allergenic solution, dermatologically tested

›Effectiveness:

Promotes the correct healing process

- ›Gives an immediate and long-lasting feeling of relief to irritated skin
- ›Does not contain alcohol, silicones, parabens;
- ›Maintains the natural skin pH unaltered
