

# TRANSDUCER PROTECTOR

## Product Features

- Effective antibacterial hydrophobic air filter only allows air to pass through, preventing cross contamination, and protects patients and equipment.
- 100% in-process testing. (membrane integrity, air tightness of welding)
- Easy to connect and disconnect from dialysis machine.
- Available to connect snap off part on Tubing port series product.
- Colored housings available for identification and assure safety.
- Certified biocompatibility.

## Specifications

<b>Filter media</b>	Hydrophobic PTFE membrane (Pore Size: 0.2 $\mu\text{m}$ )
<b>Housing</b>	Medical grade PVC (Non-phthalates series)
<b>Inlet/Outlet Connections</b>	Male/Female Luer Lock Male/Female Luer Slip · Tubing Port (All Luers conform to ISO 80369-7)
<b>Sterilization Compatibility</b>	Ethylene Oxide (EtO)
<b>Minimum Water Breakthrough</b>	1.5 bar
<b>Biological Safety</b>	Materials of construction pass USP Class VI

## About VPM

Valueplus Materials Inc. is a professional supplier of medical materials for hemodialysis treatment in Taiwan. Our plant is equipped with GMP standard factory buildings with ISO 8 clean rooms, injection molding machines, and automatic assembly lines. VPM performs strict quality control and our quality management system relies on Good Manufacturing Practice (GMP) and ISO 13485 requirements.

## Certification

- ISO 13485
- GMP

Valueplus Materials Inc.
