

Product Features:

- **Proprietary material:**
Stretchable proprietary polymer material which is self-healing to bullet penetration and resistant to UV exposure.
- **Micro Adjustments:**
Tension adjusts in increments of millimeters to avoid over-tightening that can cause nerve and tissue damage.
- **Locking Mechanism:**
Triple automatic self-locking system.
- **Highly Visible Safety Release Lever:**
Childproof and can easily be removed by medical professionals
- **Release Lever Safety Cover:**
To help protect release lever during transport
- **Visible Instructions:**
For easier application under high stressed scenarios
- **Molle Compatible:**
For easy versatile storage capabilities.
