

# Wound care

## Berry manufactures a range of solutions for the wound care market suitable for plasters, specialty wound dressings, and tapes

By utilizing a wide portfolio of polymers and manufacturing techniques, Berry is able to engineer products to meet the exacting demands of the wound care market with superior comfort, absorbency, and low lint characteristics. We incorporate additives such as antimicrobial treatments during manufacture, keeping the process simple.

### Standard range

Product	Application	Basis Wt. (gsm)	Properties
VAP40	Woundcare Tape	41	Easy to tear tape, soft
VAP 40 RC	Woundcare Tape	41	Easy to tear tape, soft, release coating
PSP 40	Surgical Tape	40	Repellent treated
PNR 50	Surgical Tape	50	High temperature resistance
7299	Swab	35	High absorbency

### Features

- Basis weights from 10 gsm to 200 gsm
- Spunbond, spunmelt, and carded technologies offer strength, comfort, and softness properties
- Wide base of raw materials available: PP, PE, polyesters, and blended fibers
- Steam, plasma, gamma or Ethylene Oxide Sterilizable (EtO)

### Properties

- Softness
- Comfort
- Low-lint
- High absorbency
- High Loft
