

Optimal Protection & Performance for Sterilized Healthcare Products

Oliver pouches offer a worry-free sterile barrier protection system for all of your devices.

Pouches

Oliver offers the most comprehensive set of pouch materials and custom design options for medical device and pharmaceutical packaging.

Pouches are fully customizable--including size, design and material selection--for optimal protection and performance.

A wide array of pouches are available including pouches that are peelable, can be torn or cut open, are puncture resistant and have pockets.

Pouch materials include Tyvek®, Ovantex®, papers, films and foils.

Pouches are available coated or uncoated, and can be printed with up to eight colors to maximize branding.

Oliver offers superior adhesive options including our exclusive Xhale® hot-melt and SealScience® water-based adhesives for pouch and lid applications.

Can include sterilization indicator inks.
