

Medical Device Design & Development

Veletium Core Values

 **Honorable**
We do Right for Right's sake

 **Results ++**
We do the job and then some

 **Humble Charisma**
We strive to be the kind of people others want to be around

Why Veletium

- ✔ One stop for secure design, development, production, and post-market
- ✔ Better questions being asked sooner to ensure ongoing success
- ✔ Tailored contract terms to best serve your unique situation
- ✔ Open and intentional discussion rhythm throughout your project
- ✔ Productive relationships with authentic people, designing life-changing devices

Our Process

Client Testimonials

With Velentium, I was guaranteed to make progress on any issue and have it resolved quickly, which was invaluable as an early stage medical device entrepreneur.

- Dan Rizzuto, CEO | Nia Therapeutics

I greatly appreciated the access I had to their senior engineers early in the sales process – allowing for a smooth transition right into project work down the road. I have in the past and will continue to recommend Velentium to my colleagues.

- Kent Leyde, CEO | Cadence Neuroscience

We knew we could trust Velentium from Day 1. Velentium is committed to its clients' success and will ensure that projects are completed with excellence and honor. They have a passion to help people, and it is demonstrated every step of the way through every employee. I have a lot of things to worry about daily. Velentium is never on that list.

- Daniel Powell, CEO | Spark Biomedical
