

Who we are

Privately owned, independent and neutral, SCC is home to 140 regulatory affairs and scientific advisors. We offer our customers in-depth cutting-edge expertise and partnership at eye level, built on respect, commitment and responsibility. There is no regulatory challenge too great for our experts to master, and none too small to be met with their fullest efforts.

What we offer

Regulatory and Scientific support for strictly regulated areas.

Our Services for Medical Devices

- We provide all-inclusive regulatory and scientific support for medical devices, helping manufacturers secure their success in their target markets and get prepared for the demands of the future.
- We are your partner for clinical evaluation services and scientific literature searches.
- We support you directly with biological evaluation strategies, including, data review/evaluation and intelligent testing strategies.
- We are the specialist for strategic advice, review and support with nanomaterials, endocrine disruptive substances and substance of concern.
