

INNOVATORS IN PHOTONICS

FISBA

Our company at a glance

- Established in 1957, privately owned
- Leading supplier of optical systems, micro systems and components
- Headquarters in Switzerland
- Revenue > CHF 60 Mio.
- ~360 employees, thereof 30 apprentices
- Subsidiaries in Germany, China and in the United States
- Global market presence

Our goal

Here at FISBA, we constantly innovate to strengthen YOUR competitive edge. We achieve this with customized, sustainable optical solutions for you.

FISBA

Philosophy

FISBA is a market leader in optical components and customized optical systems. We develop innovative glass technologies for shaping and delivering light.

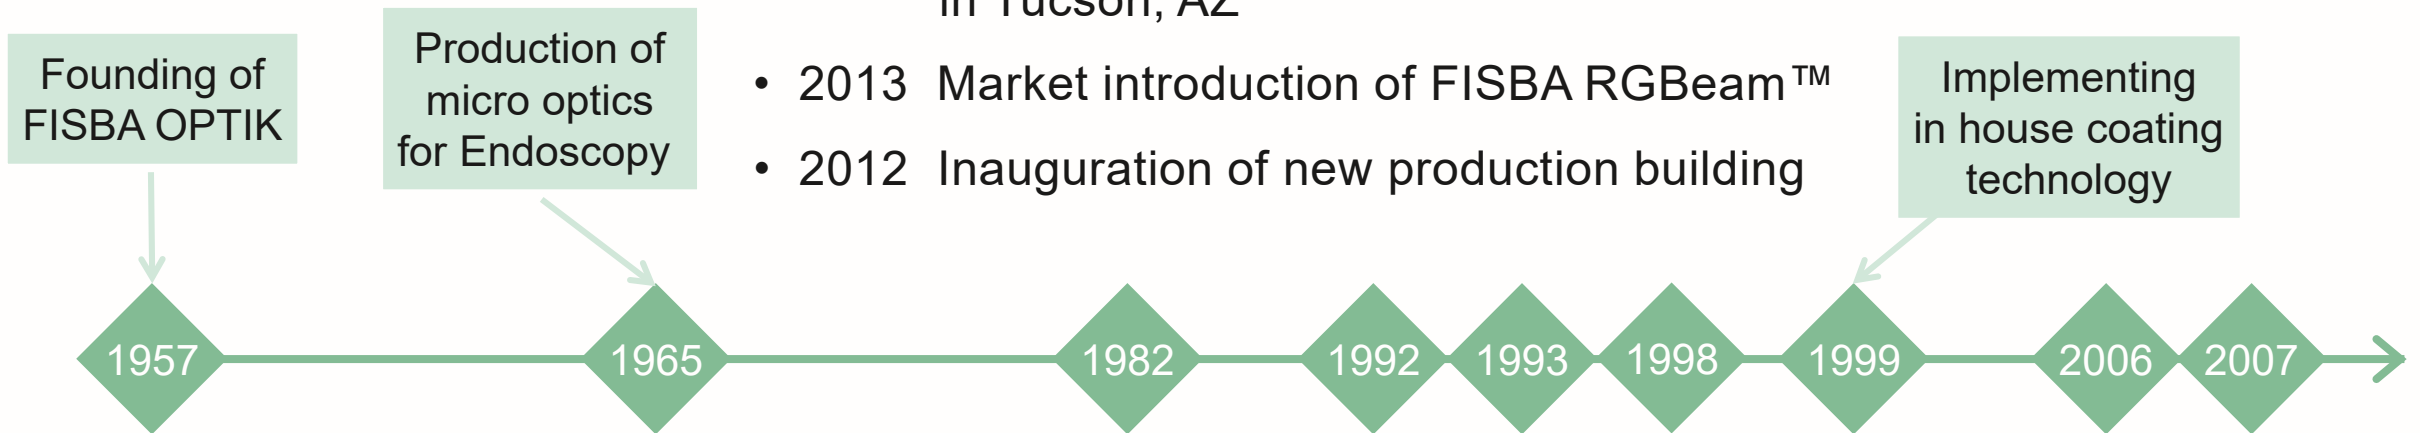

Our 4 key competencies are

- Optical design and System Engineering
- High precision glass forming and molding
- Manufacturing of miniaturized optics including high precision micro assembly
- Coating

FISBA

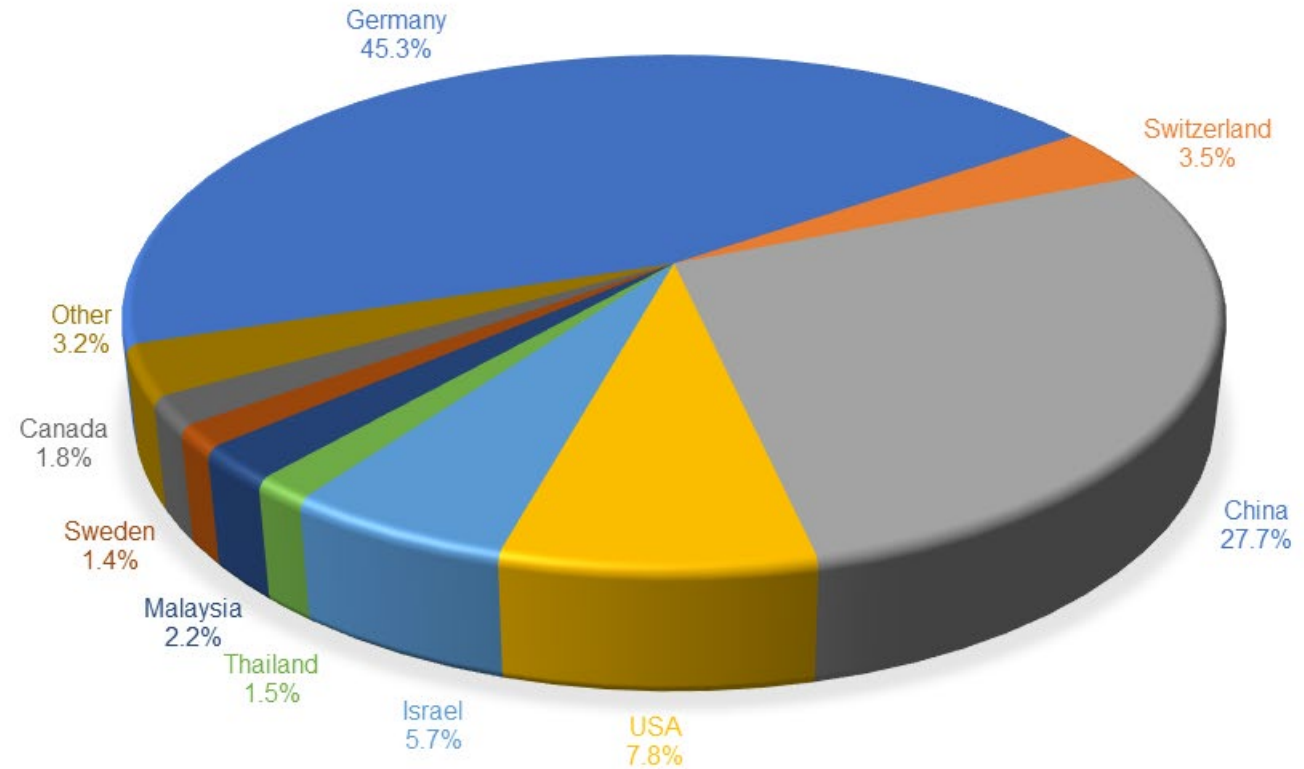

- 2020 FISBA is reinforcing its market presence in Asia with the opening of the sales office FISBA (Shanghai) Co., Ltd.
- 2019 Market introduction of FISBA READYBeam™
- 2015 FISBA OPTIK AG changes company name to FISBA AG
- 2014 FISBA expands its global brand to the U.S. with the formation of FISBA LLC production facility in Tucson, AZ
- 2013 Market introduction of FISBA RGBeam™
- 2012 Inauguration of new production building

FISBA

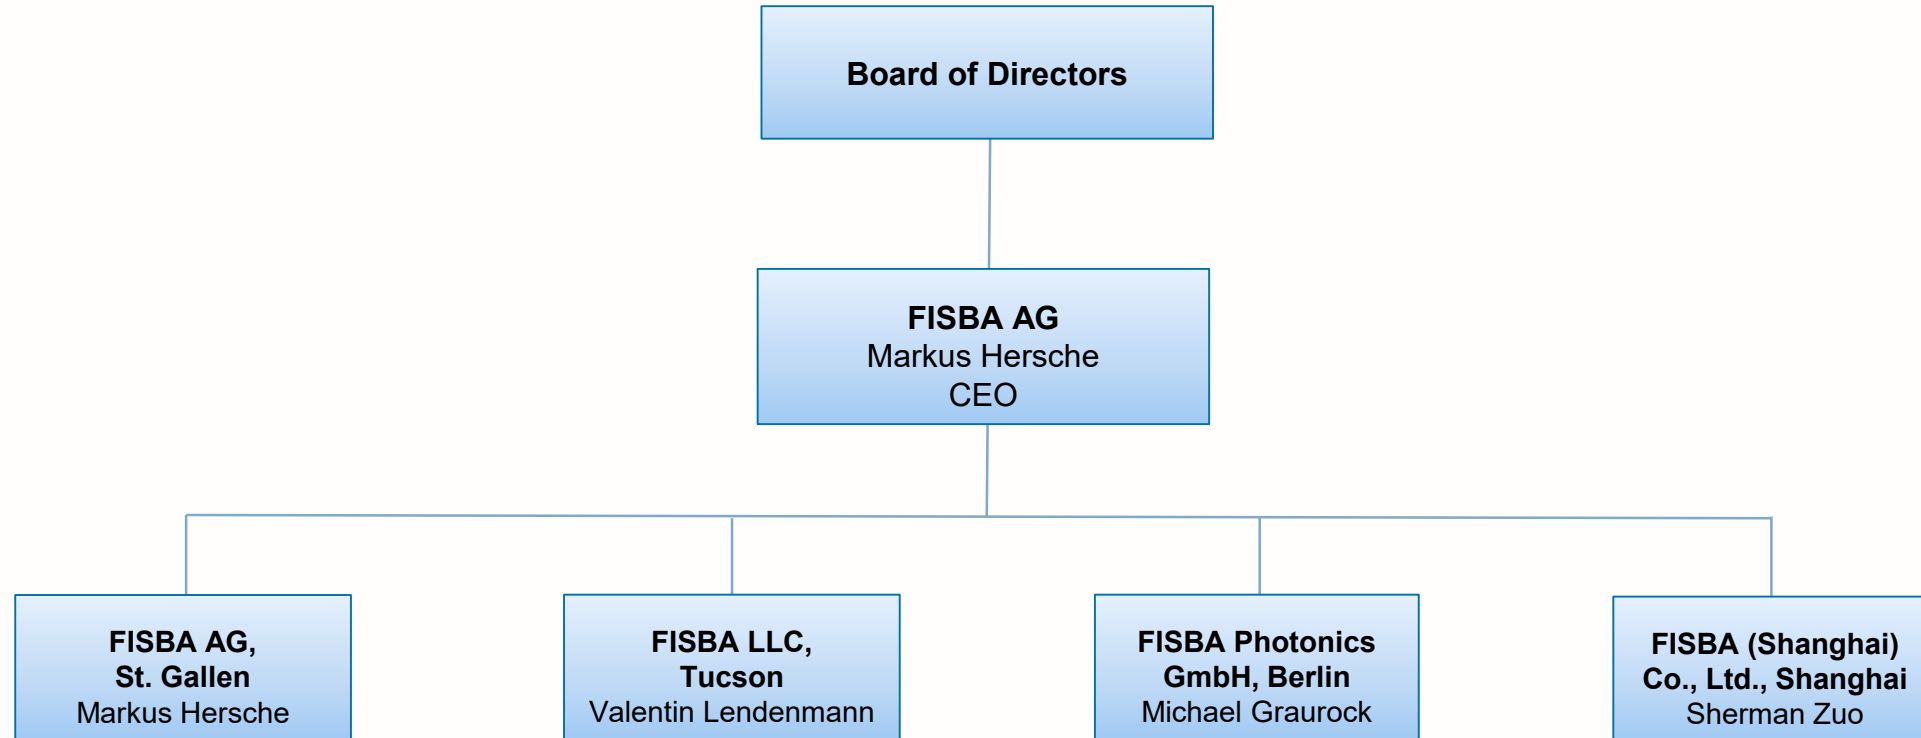

Our company at a glance

- High export share
- ~ CHF 4 Mio. annual investments

Management FISBA AG

FISBA

Medical Technology / Endoscopy

- High quality imaging optics in large quantities
- High reproducibility
- Micro optic diameter starting at 0.3 mm, single or achromatic lenses
- Precision molded lenses: 1–30 mm
- Customized design
- Coating adapted to application
- Holistic solutions with optic casings possible
- Laser modules and laser illumination direct and fiber-coupled
