

# ABOUT BIOREGEN

---

Established: 2008 • Location: Changzhou, Jiangsu  
Medical applications using HA based biomaterials

Our Vision: To become a respectable global biomedical company, providing leading technology products and professional services to patients and doctors

Core technology: Advanced Self-crosslinked and Biomimetic Hydrogels

Medical Applications in GYN/OB

- HyaRegen®.....Prevention of pelvic and abdominal adhesions
- MateRegen®.....Prevention of intrauterine adhesion and improve endometrial quality

Outstanding product features

- Crosslinked hydrogel without crosslinking reagent used
- Fully cyto-compatibility and in vivo biocompatibility
- Tailored biodegradability at controlled rate simulated the in vivo environment
