

Medibino® - Welcome - Box

Providing Protection and Safety

Providing protection and safety for your baby and setting you at ease - this is our Medibino® Welcome Box. It comes with a guardian angel, a friend for life and plenty of cuddles. The Welcome - Box uniquely combines the beautiful with the useful:

Medibino - The guardian angel for your baby's head

With our Medibino® baby head guard, you can give your baby the best possible protection against head deformities right from the start. The Medibino® results in even pressure relief in the recommended lying down position and thus protects your baby's head so that it retains its natural, round shape. The medical device was developed according to the latest scientific findings by doctors.

The cuddly squirrel Bino - a cuddly friend for life

Our cuddly squirrel, Bino, can be cuddled, stroked, and touched. With his friendly smile and sweet face, he will conquer your baby's heart by storm.

Our cuddly blanket - the versatile blanket for all situations

The cuddly blanket in the Medibino® Welcome Box is a true all-rounder, which you can use as a baby blanket, swaddle blanket, or crawl blanket. It is cuddly soft and easy to clean. With measurements of 80 x 85 cm, it is big enough to be a blanket and still manageable enough to store in a nappy bag.

Loveable design for special moments of well-being - Made in Germany

All components of the Medibino-Box are individually designed and handmade in Germany with a lot of love. The high-quality materials in combination with the sweet designs make children and adults happy and ensure unforgettable moments of well-being. The Medibino box combines beauty and comfort with medical effectiveness and protection for your baby - for a safe start in life. This makes it the perfect gift for birth!

Medibino® - Welcome - Box

Providing Protection and Safety

- Developed by doctors and recommended by midwives - our patented Medibino® positioning pillow protects your baby's sensitive head from the beginning.
- The cuddly squirrel Bino can be cuddled, stroked, and felt at every turn.
- The baby blanket for all life situations - as a top cover, to lie on, or even just to cuddle with. It's soft material makes it so versatile.
- The functional cotton bag can be used to protect and transport the set.
