# I. Slogan

## **-Help peoples and patients**

The final goal of our business is help patients and peoples in the whole world to have healthy life during their life time.

## **-Providing innovative MIS medical device**

The development process will be triggered by the voice of surgeons and the innovative device will be provided to the market as a solution by our hands.

## **-Mutual beneficial relationship**

Based on the creditability and mutual beneficial relationship, we will grow together with our partners to be a responsible global society member.

## II. Introduction

SurgiCore Co., Ltd. is an emerging medical device technology company based in Korea.

We work with surgeons to identify clinical problems and we use our model to develop solutions that have international market appeal and viability.

We are focused on advancing Laparoscopic and Minimally Invasive Surgery (MIS).

We provide novel devices to surgeons to enable them to achieve better outcomes for their patients.

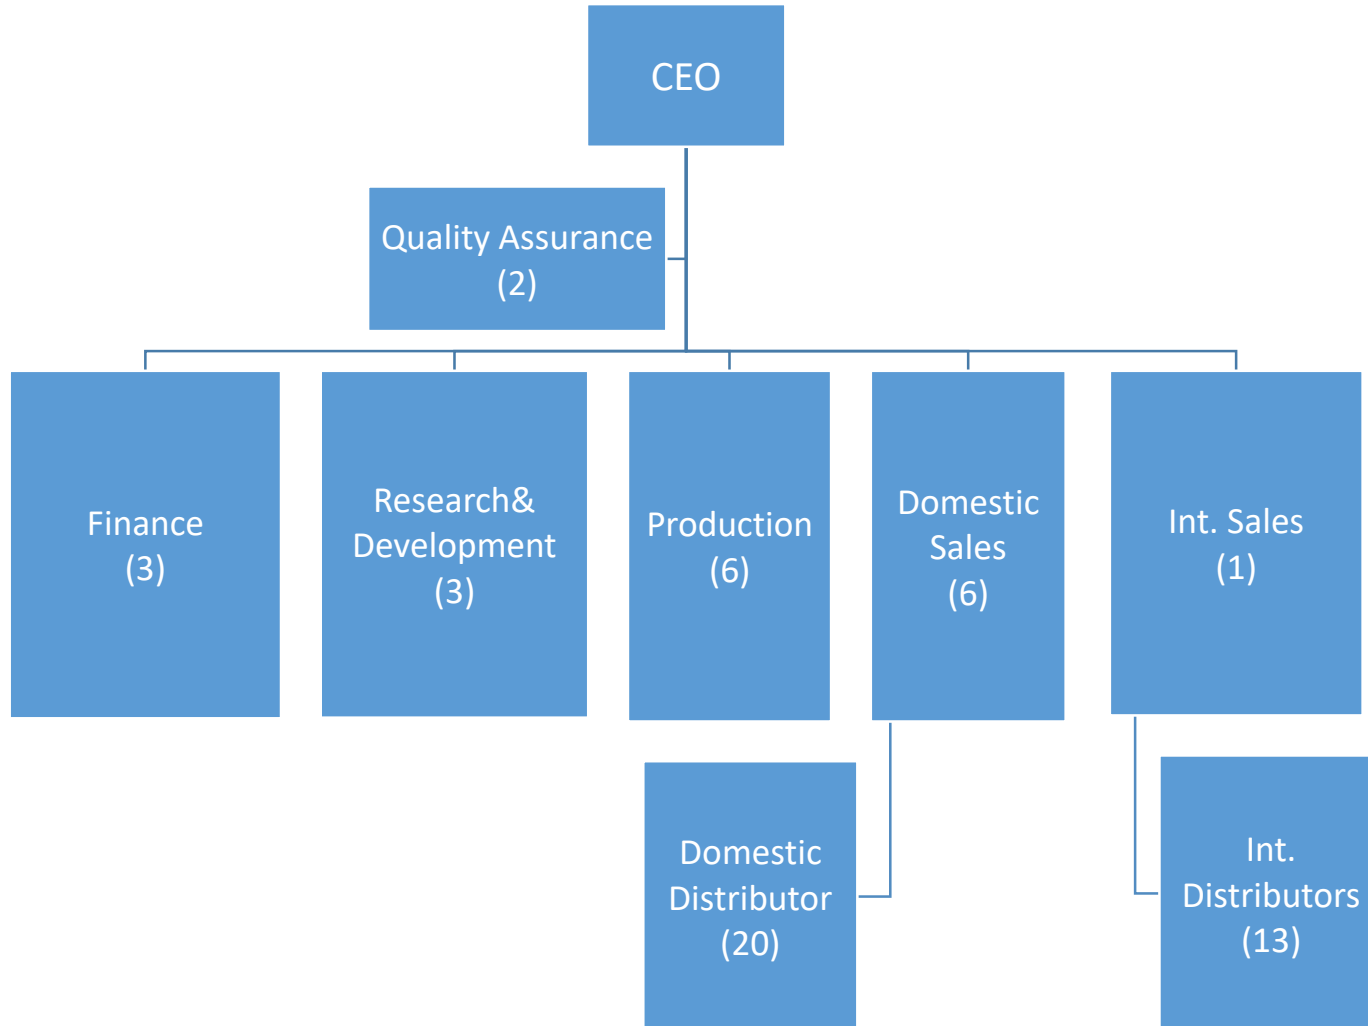

We pride ourselves on been very close to the market, understanding the advancing needs of MIS surgeons, interpreting these needs into an engineering response and marketing the end device to an international market.

Together with our customers and partners, we will continue to improve the MIS environment and help peoples.
