Press Release

ELISCHA® at the MEDICA in Düsseldorf

November 15 to 18, 2021

Visit ELISCHA business development medical at NRW booth C80, hall 3

ELISCHA business development medical and Partner are joining forces for the International Trade Fair MEDICA, November 15 to 18, 2021 in Düsseldorf/Germany. Come to the MEDICA and get informed and convinced about the “motivation, efficiency and cost effectiveness” of our medical- and disinfection products, from surface hygiene to hand disinfection and oral hygiene!

ELISCHA®

At ELISCHA®, our core competence is for over a decade the development of business in the area of innovative medical products and disinfection systems, primarily for the sophisticated sectors of intensive care, respiratory, oral care and wound care.

Innovative medical- and disinfection products

ELISCHA® presents innovative medical- and disinfection products including **surface hygiene, hand hygiene** and **oral hygiene**. In all three segments for infection prophylaxis you will find highly effective and economically efficient solutions for both, care and protection of patients as well as personnel. All those innovations are based on decades of experience in healthcare.

TEMDEX® Wipes roll!

Germes can survive on surfaces for months and get transferred by hands or dust to humans. Thus surface disinfection is an essential tool to inhibit the transfer of diseases. At the MEDICA, ELISCHA business development medical and Partner, will introduce one of the latest further developments for a routine, regular and targeted disinfection:

The TEMDEX® Wipes roll!
